

Don't try to handle your claim yourself.

When disaster strikes, people try to handle the claim themselves. Or worse, they leave the claim handling up to the insurance company, hoping they will be treated fairly and get paid what they are entitled to under the policy. Especially at a time when insurance company resources are critically overtaxed, you have better odds of winning in Vegas than getting a good adjuster.

Think of it this way ... you turn over your taxes to a professional for a refund, why would you attempt to handle a \$15,000 or \$50,000+ insurance claim yourself?

Unless you are experienced and trained in insurance claims, handling your own major loss would be like defending yourself in court, or performing your own root canal!! That's where we come in. We know insurance. More importantly, we know insurance claims.

We are experienced in working with insurance claims, and we will work only for you. We prepare, submit and negotiate the claim on your behalf, and only with your best interests in mind. We are able to explain the process, and inform you of your options. Having experience with the largest insurance companies in the country, we know what it takes to put you back in the same or better shape as before the storm, and maximize the settlement for you.

Insurance policies are confusing, and adjusters are only human. They have varying degrees of experience, knowledge and ability, they are under great pressure from companies and policyholders, and are bound by specific time constraints. The bottom line - they make mistakes - mistakes which could cost you a lot of money. You need Tide Construction Co. on your side!

We only work for **YOU!** We have the training, experience and know-how to recover the maximum for your claim, and we educate you in the process. **With Tide Construction, you get more.** More knowledge, more power, more understanding, more control, more results, more of what you deserve from your claim. **You need someone working for you that knows as much as your insurance adjuster does. If you are not in the insurance business, your adjuster has information you don't and has an unfair advantage.**

Not every Contractor has the education, training, resources and experience we do. We are not a "tail-gate contractor nor your cheapest bid", we will however do our best for you.

Price, Service and Quality together add up to Value. Our job is to get you the best Value. Don't be fooled by deals that sound too good to be true. Call Tide Construction Co. and let us go to work for you.
